

Android Node & MiniDapp Setup Guide

Installing Minima on Android

To update Minima to the latest version, please follow the steps below:

1. Uninstall any old versions of Minima on your phone
2. Install the latest version from the google play link provided
3. Ensure you allow Minima to run as a background service on your phone

How to use MiniDapps

For more information and guidance on using the new Minima app and MiniDapps, please see the **Help** section in the mobile app.

Accessing the MiniDapp Hub on Desktop

If running your node on a mobile device, you can interact with your node from a Desktop on the same WiFi as the mobile, to find the URL you need, go to the **Health** page.

You will see your MDS login page, enter the password shown when running **mds** from your node's CLI to access the MiniDapp Hub.

Testnet Minima Coins

To get Testnet Minima coins, please request these from the Minima Innovation Challenge channel in Discord and post your Minima address there.
